## 2020 M600 SLS

N600ET • SN 4698114

### Autoland

HALO keeps you safe when the pilot is incapacitated. HALO controls and guides the aircraft to the nearest runway for a precision landing.

### Automatic Level Mode

Return the aircraft to a wings-level attitude with zero vertical speed at the push of a button.

### Autothrottle

Fully integrated, standalone autothrottle, reducing pilot workloads from climb-out to landing approach by automatically adjusting the aircraft's power mode settings based on preset flight profiles.

### Hypoxia Recognition System with Automatic Descent Mode

Monitors pilot interaction when autopilot is engaged at cabin altitudes above 14,900 feet. The system brings the aircraft to a lower altitude to allow recovery from hypoxia.
