The BeechJet 400A / Hawker 400XP both remain some of the most popular light jet aircraft for both savvy business travelers & private passengers. Essentially the same aircraft, the 400A / 400XP model is one of the fastest aircraft in its class with one of the largest & most comfortable cabins in its class. With adjustable seating for eight passengers and ample baggage capacity both inside the cabin and in the heated and pressurized baggage compartment, the aircraft can reach thousands of non-commercial airports with ease — putting you closer to your destination.

Cutter Flight Management operates several BeechJet 400A / 400XP's as part of its on-demand air charter fleet. Please contact Cutter Flight Management through our 24/7 Customer Care & Dispatch line at 800-297-8524 for aircraft availability and pricing.
